

Police Activity in The Oaklands Subdivision, November 2009 - April 2010

NOTES

The data source for this analysis is the Police Department's Computer-Aided Dispatch (CAD) database, meaning these data are drawn from information police dispatchers enter into the computer as calls occur. The primary limitation of these data is that they may not reflect the actual nature of a call or its true final disposition. Thus, some care should be exercised in interpreting the results presented here.

Traffic stops and animal-related calls are screened from the analysis. If a serious call type -- such as assault or robbery -- does not appear in the table below, then no calls of that nature were experienced in the subdivision during the period in question.

Any questions regarding these results or the report's preparation can be directed to:

RRPD Logistics and Research Unit
2701 N. Mays

Call dispositions are organized into the following categories: Arrest Made, Cancelled/False Alarm, No Report, Report Taken, Referred (to Other Agency), Unable to Locate, and Warning or Ticket Issued. If a category does not appear in the table above, then no calls resulted in that disposition category during the period in question.
